Bose

QuietComfort Ultra

Quick Start Guide

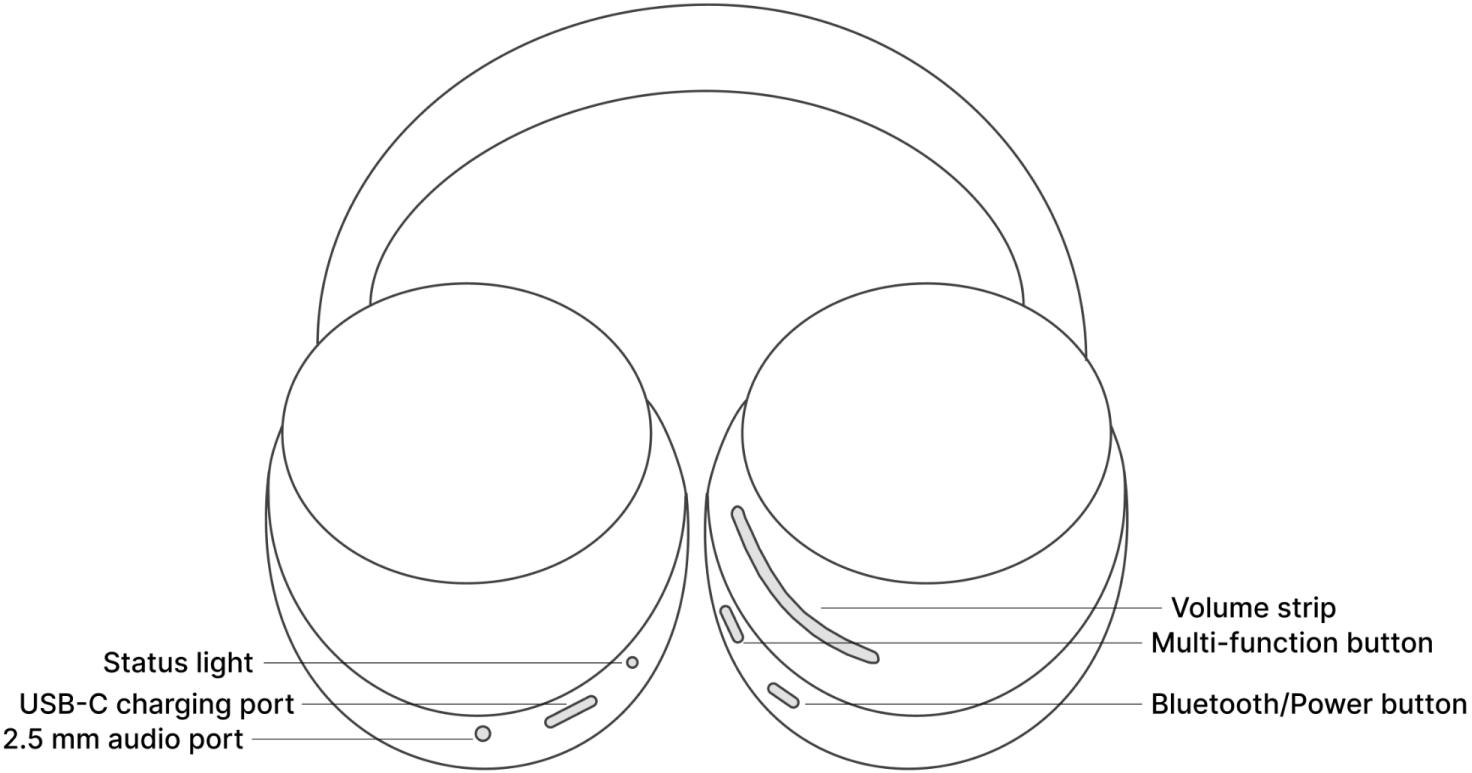
Welcome

This quick start guide walks you through setting up your Bose QuietComfort Ultra headphones so you can start listening right away. It covers powering on the headphones, connecting them to your phone, and using basic playback controls.

What’s in the Box

- Bose QuietComfort Ultra Headphones
- Carry case
- USB-A to USB Type-C cable
- 3.5 mm to 2.5 mm audio cable

Controls



Volume strip
Multi-function button
Bluetooth/Power button
Status light
USB-C charging port
2.5 mm audio port

Download the Bose App

To complete the full setup for your headphones and access additional features, download the **Bose app**.

1. Open the App Store (iPhone) or Google Play Store (Android).
2. Search for **Bose**.
3. Download and install the Bose app.
4. Open the app and follow the on-screen instructions.

Powering On

Press and release the Bluetooth/Power button. The status light turns on, indicating the headphones are powered on.

Connecting to Your Device

When you turn the headphones on for the first time, they should be in pairing mode. If they are not, press and hold the Bluetooth/Power button until the status light blinks blue and you hear “Ready to connect.”
On your phone, open the Bluetooth settings and select Bose QC Ultra Headphones.

Start Listening

Once connected, you can start listening right away using your music app of choice.

To play or pause media, **press the multi-function button**.
To adjust the volume, **swipe up or down on the volume strip**.
To skip forward a track, **double-press the multi-function button**.
To skip backward a track, **triple-press the multi-function button**.

Change Noise Cancellation Modes

By default, the headphones will start with **Quiet** mode active. To switch the current noise cancellation mode of the headphones, **press and hold the multi-function button**.

Pre-programmed noise cancellation modes:

- Quiet: Full noise cancellation while listening in stereo audio.
- Aware: Allows you to hear your surroundings while listening in stereo audio.
- Immersion: Full noise cancellation with immersive audio in **Motion** mode.

***Tip:** Use the **Bose app** to set custom modes.

Troubleshooting

Issue	**Solution**
Headphones have no sound.	● Make sure audio is playing on the listening device. ● Press and release the Bluetooth/Power button to make sure the devices are connected. ● Restart the headphones. ● Restart the listening device.

Headphones don’t turn on.	● Charge the headphones using the USB-A to USB Type-C cable for a few minutes, then try again.
Headphones don’t connect.	● Make sure the audio cable is **not** connected. ● Disable and re-enable Bluetooth on your listening device. ● Restart the headphones.

If you need additional help, refer to Bose’s official support documentation.

You’re Ready to Listen

Your headphones are now set up and ready to use. For additional features, settings, and customization options, use the **Bose app**.
